

Something that you know

- ✓ **Good as long as** you remember the secret and nobody can uncover or guess this secret
- ⦿ **Gets compromised as soon as** someone else knows this secret and is able to use it

Something that you have

- ✓ **Good as long as** you do not lose or damage the token and there is only one instance for a “given token”
- ⦿ **Gets compromised as soon as** someone can duplicate or fake the token
