

DDoS attack that disrupted internet was largest of its kind in history, experts say

Posted by [Eric Beaudoin](#)

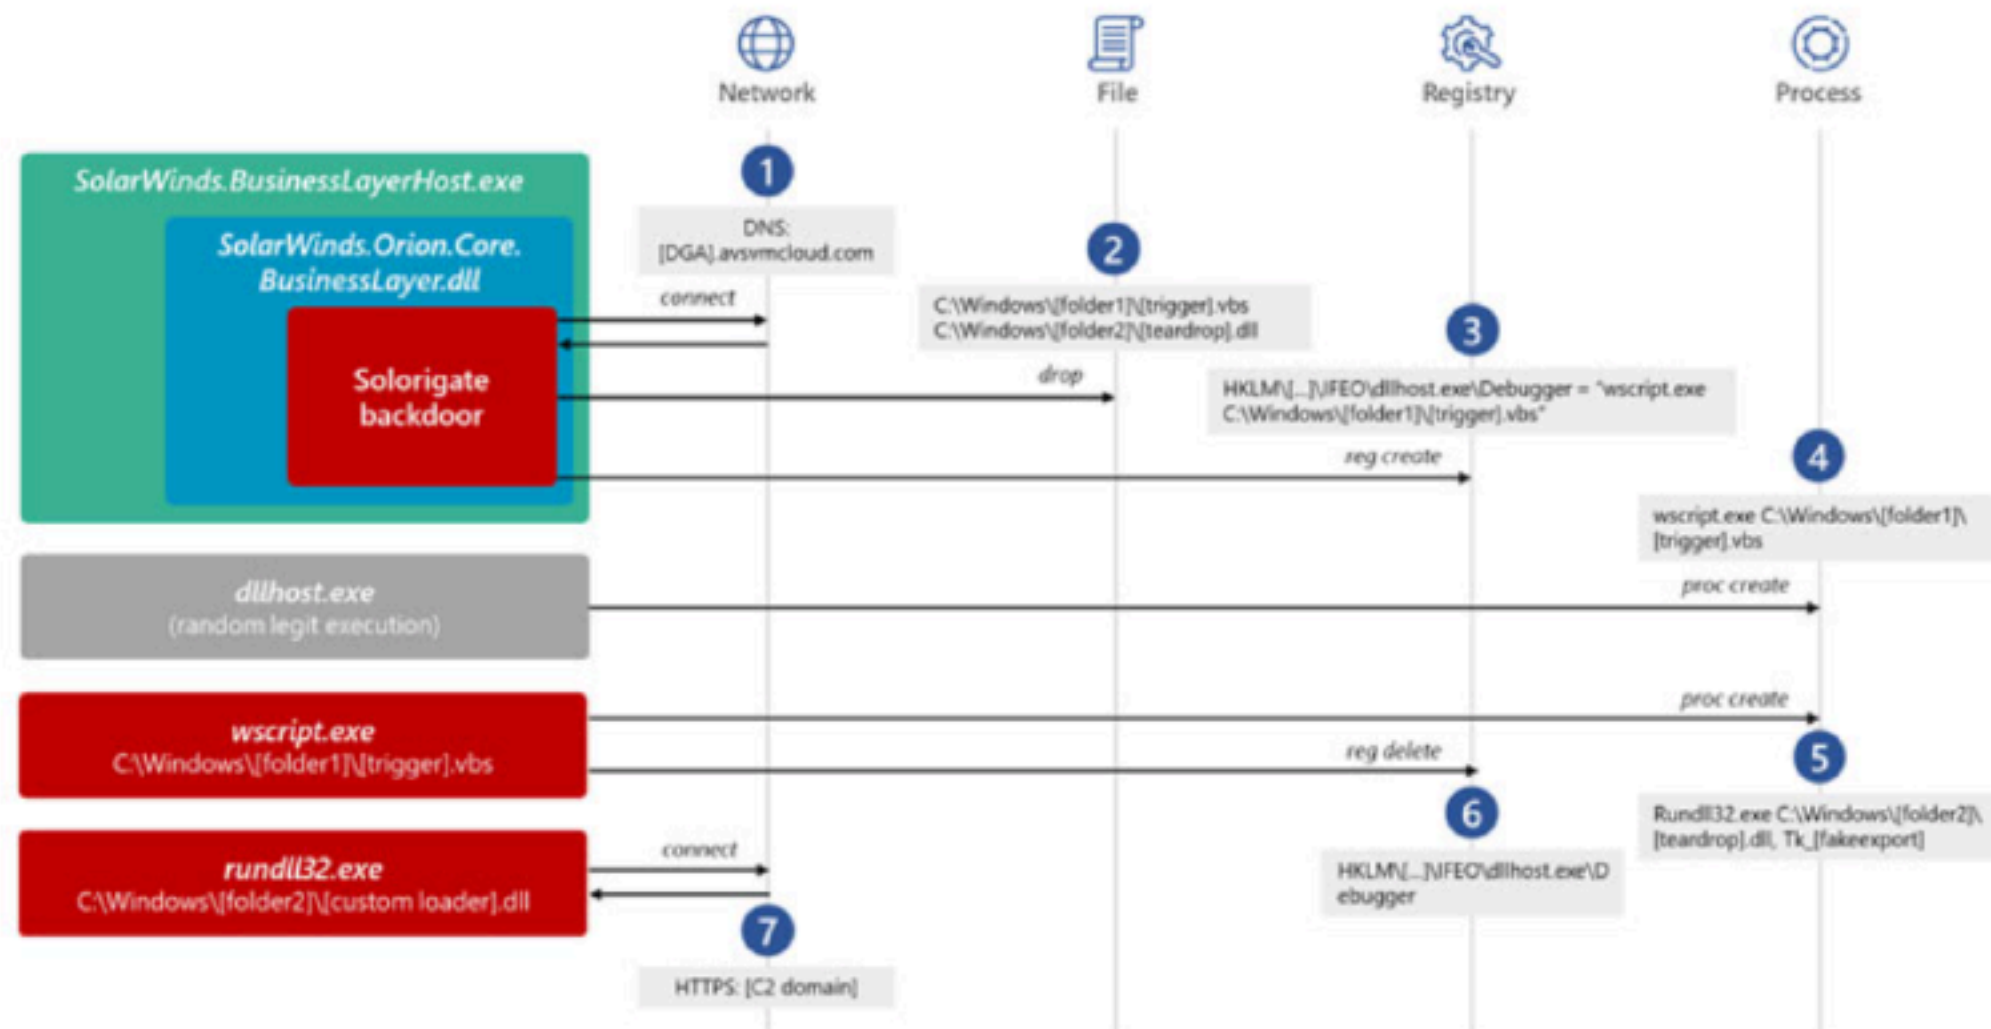

Dyn estimated that the attack had involved '100,000 malicious endpoints', and the company said there had been reports of an extraordinary attack strength of 1.2 terabits (1,200 gigabytes) per second. Photograph: Alamy

Here's How SolarWinds Hackers Stayed Undetected for Long Enough

January 21, 2021 Ravie Lakshmanan

Microsoft on Wednesday shared more specifics about the tactics, techniques, and procedures (TTPs) adopted by the attackers behind the SolarWinds hack to stay under the radar and avoid detection, as cybersecurity companies work towards getting a "clearer picture" of one of the most sophisticated attacks in recent history.
