clear number 4

GET /?videoId=527

<html . . .

ContentSporfing

A red speech bubble with a white border and a pointed tail on the left side. Inside the bubble, the text "The page contains the attacker's ad." is written in white.

The page contains the attacker's ad.

Content Spoofing

GET /?videoid=527

<html ...

comment = "Fun stuff ...

GET /?videoid=527

<html ...

The page contains the attacker's ad.

* Notice that Youtube is **not** vulnerable to this attack

Problem

- ➡ An attacker can inject HTML tags in the page
- ⦿ Add illegitimate content to the webpage
(ads most of the time)
