

Risk Analysis & Security Policy

Goal	Inferring what can go wrong with the system
Outcome	Set of security goals
Principles	<p>You never prevent a threat, you lower the risk</p> <p>Performing an attack is more or less difficult the assets to protect versus the attacker's efforts</p>

Mechanisms

Goal	Define a strategy to realize the security goals
Outcome	Set of security mechanisms
Principle	Deploying security mechanisms has a cost (cost of recovering versus cost of deployment)
