

Do you own risk analysis

How important is your data on your laptop? on your phone?

• on internet?

What if someone steals them? distributes them?

distributes them?deletes them?

What if the system is down or not working well?

Do you own risk analysis

How important is your data

- on your laptop?
- on your phone?
- on internet?

What if someone

- steals them?
- distributes them?
- deletes them?

What if the system is down or not working well?

Triaging Risk Exposure

Risk Exposure = probability × impact
